

PRESS RELEASE

**CISC QUEBEC DESIGN AWARDS OF EXCELLENCE IN STEEL CONSTRUCTION:
THE 18TH DESIGN AWARDS GALA INSPIRES INDUSTRY LEADERS AND
PROFESSIONALS ACROSS THE PROVINCE!**

The Québec Region Manager Dr. Hellen Christodoulou and CISC President Ed Whalen

MONTREAL (November 8, 2016) – The Quebec Region of the Canadian Institute of Steel Construction (CISC-ICCA) held their 18th Gala for the Design Awards of Excellence in Steel Construction at the Pointe-à-Callière Museum in Old Montreal on Friday November 4th, 2016.

This remarkable event inspired industry leaders and devoted professionals across the province. Under the theme « **The contribution of the Steel Industry to Innovation and Creativity** » the Gala was an occasion to recognize exceptional Architectural and Engineering projects that have inspired industry champions and passionate professionals across the province.

“The steel industry is among the most important industries; it is very dynamic and constantly evolving and contributes significantly to the Quebec economy” explains Dr. Hellen Christodoulou, Quebec Region Manager.

Amongst 83 submissions and 37 finalists, the Design Awards for Excellence in Steel Construction were presented to 11 winners in the following categories:
