ABOUT THE...

2017 MANITOBA/NW ONTARIO STEEL DESIGN AWARDS OF EXCELLENCE

CISC MANITOBA/NW ONTARIO REGION

The CISC is the Voice for the Canadian steel construction industry, providing leadership in design and construction efficiency, quality and innovation. CISC–Manitoba/NW Ontario Region provides representation for Manitoba/NW Ontario and undertakes regional initiatives like the Design Awards.

AWARDS

The inaugural 2017 CISC Manitoba/North West Ontario Region Steel Design Awards of Excellence is themed **Connecting People with Steel – Celebrating 21st Century Steel Construction**. To be held biennially, the goal of this Awards event is to share and recognize steel design and innovation excellence – promote awareness of the advantages of steel in construction and create networking opportunities for CISC members, partners and clients.

Projects are entered in the following categories:

Four Regional/National Award Categories

- Architectural
- Bridge
- Engineering
- Sustainability

Eleven Open Categories

- Industrial
- Residential
- Bridge (vehicular)
- Creative building areas [ie mezzanines]
- Outside of region projects
- Public
- Mining
- Commercial
- Recreational
- Bridge (pedestrian)
- Post-secondary schools research

Also, in 2017, all submissions will automatically be placed in the 21st Century Celebration category.

AWARDS CELEBRATION: APRIL 5, 2017

The RBC Convention Centre's beautiful York Ballroom in the recently completed new steel south building will be the location for this special evening of celebration featuring:

- Welcome Reception
- Celebration Banquet
- 21st Century Steel Celebration Video Montage
- Awards Program

EDUCATIONAL INSTITUTIONS

- Assiniboine College
- Confederation College
- Lakehead University (Civil Engineering)
- Red River College of Applied Arts
- University of Manitoba (Civil Engineering)
- University of Manitoba (Architecture)

2017 MANITOBA/NW ONTARIO STEEL DESIGN AWARDS OF EXCELLENCE

What we're all about

The Manitoba / NW Ontario region is an active organization with both annual activities and those that pop-up from time to time. At present we are over 70 members strong. We mirror our national strategic plan within the region, while adding our own flavour to local initiatives. Those annual initiatives include:

Advocacy – Continuing to meet directly with the provincial government and the official opposition. Beginning to work with major municipalities [Winnipeg, Thunder Bay, Brandon] as 2016 moves along.

SteelDay – Carrying out various events and tours on our special National Day. In 2015 429 people took part in our SteelDay activities.

Post Secondary Bursaries – We have established six / \$1,000 bursaries to our schools which include: University Manitoba 'Engineering' & 'Architecture'; Lakehead University; Red River College; Confederation College; Assiniboine College.

Speaker activities – We provide speakers on all sorts of dynamic and innovative subjects throughout the year.

Lunch & Learns – We provide educational sessions to members and non-members in the area of CISC membership and industry growth.

Collaboration – Joining with various organizations in the area to improve our industry and our employees. These include: WCA, CWA, NTCCC, Sustainability groups, APEGM, RAA and others with such events as the Careers Expo in May visiting with over 1,800 graduating high school students.

Connections – We act daily to provide both local and national resources to our members and other potential members. Speakers, engineering, professional contacts are included.

Member Value – We are constantly on the lookout for opportunities / activities to provide further value for and with our members.
